

CHELSEA HING

Chelsea Hing Design Consultants' interior design philosophy is based on taking cues from the architecture, so that the interiors complement and respond to the surrounding environment. Combined with clever planning and a practical understanding of how people need to use space to live well, the result is interiors that mix great looks with good sense. Chelsea Hing MDIA began her career with Nexus Designs, one of Australia's leading multidisciplinary design consultancies renowned for their contemporary Australian interiors. Chelsea went on to establish her own practice in early 2007 and has been building a reputation for well considered contemporary interiors ever since.

The firm has been shortlisted for numerous awards including the Dulux Colour Awards, IDEA Awards, National Interior Design Awards and Chelsea was profiled in The Age Melbourne Magazine's design issue as an up and coming designer to watch.
